

JOMEL CADIENTE

Full Stack Developer

Isabela, Cagayan Valley, Philippines | (+63) 960 399 5254 | cadientejomel0423@gmail.com | [LinkedIn](#)

SUMMARY

Full Stack Developer with 3+ years building **production web applications** using **TypeScript, React, and Node.js**. Experienced architecting **BFF layers** that handle complex **data synchronisation** across distributed commerce systems. Informally led 4+ developers through a full platform redesign, driving delivery through **code reviews** and async collaboration with a global remote-first team.

EXPERIENCE

Goodfrontend.dev | *Software Engineer* | London, UK (Remote) Jun 2023 - Oct 2025

Full-stack development across ecommerce and content platforms, backend integrations, and team leadership

- Architected and implemented the **Backend-for-Frontend (BFF) layer** using Commercetools and Fluent, managing complex **event-driven data synchronisation** across commerce systems and significantly improving frontend performance.
- Built and integrated the **Klarna payment gateway** for AmericanGolf, optimised cart page performance, and shipped the Click & Collect feature - delivering measurable improvements to the end-to-end checkout experience.
- Informally led a cross-functional team of 4+ developers through a full **platform redesign** of Goodfrontend, coordinating delivery, conducting **code reviews**, and driving consistency across the codebase.
- Contributed to **General Electric's Sustainability website**, developing frontend features, UI animations, and interactive elements to create a more engaging, production-grade user experience.
- Optimised **CMS workflows** by integrating and customising Sanity, Storyblok, and Contentful to streamline content operations across multiple client projects.

Goodfrontend.dev | *Associate Frontend Developer* | London, UK (Remote) Jan 2023 - Jun 2023

eCommerce storefront development with React, TypeScript, and CMS integration

- Developed a **React-based ecommerce storefront** from the ground up, handling UI implementation and full Storyblok CMS integration to enable scalable content management workflows.
- Established a **CI/CD pipeline** to automate deployments, reduce manual release steps, and improve delivery reliability across the development lifecycle.

Isabela State University | *Web Developer Intern* | Echague, Philippines Apr 2022 - Jul 2022

Full-stack development of an internal HR training portal using Python, Django, and React

- Built and tested **RESTful APIs** using Python and Django to streamline how HR teams managed university training programs, reducing manual tracking efforts.
- Collaborated on frontend development of the training portal, resolving complex UI challenges to deliver a **responsive, user-friendly interface** that improved task completion rates for student and admin users.
- Designed and prototyped the portal's **UI/UX in Figma**, creating an intuitive layout that enhanced usability and engagement across user groups.

TECHNICAL SKILLS

Languages: TypeScript, JavaScript, Python, HTML, CSS
Frontend: React, Next.js, Redux, Tailwind CSS, TanStack Query
Backend: Node.js, NestJs, RESTful APIs, GraphQL, Django, BFF Architecture
CMS / Commerce: Commercetools, Sanity CMS, Contentful, Storyblok, Fluent Commerce, Payment Integrations
Tooling: CI/CD, Git, Figma, Playwright, Jest, Jira, Agile, SQL Databases, Linux

EDUCATION

Bachelor of Science, Information Technology Apr 2018 - Aug 2022

Isabela State University, Echague, Philippines | GWA: 1.5 | Microsoft Student Ambassador

The Complete Full-Stack Web Development Bootcamp

Feb 2025 - Oct 2025

Udemy | Completed while working full-time. Demonstrating the ability to rapidly learn and apply new skills
